John and Chuck,

Enclosed is the Phase 2 field sampling plan for Area 3 (Otsego Township impoundment). This sampling activity includes the residential sampling that was included based upon earlier meeting and call discussions. I am having CH2MHILL review this, but can you both take a look at this and let me know if you have any comments/concerns. I want to get them comments by Monday 7/8 at the latest. So, if you can get me your feedback during the week of July 1 that would be great.

Thanks

Jim
